INDUSTRIAL KNOWLEDGE SYSTEM
==========================================
Our database currently contains info on:
 - Steel
 - Silk
 - Glass
 - Cement
 - Software
==========================================

 DATA FOUND FOR: STEEL
Sector: Heavy Industry
About: Production of alloys from iron ore and coal.
Required Land: Flat, Load-Bearing
Water Need: High (Large River)
Staff Count: 200
Monthly Labor Cost: $220,000
```
